Moderator

Sabrina's career spans over 30 years as an editor in both feature films and television with a title list of over 40 projects. Her feature career took off when she jumped into the pioneering visual effects movie *Sky Captain and the World of Tomorrow*. This experience would serve her well as the editor for the visually dazzling *Doctor Strange*. Over the years, she found a niche on several projects that combine animation and live-action such as the R-rated comedy *Strays* released in August 2023, and more family-friendly projects like *Charlotte's Web*, *Beverly Hills Chihuahua*, and *Clifford the Big Red Dog*. Recently, Sabrina returned to her love of musicals for the holiday nativity story titled *Journey to Bethlehem*, which was released theatrically in November 2023 and is now available on Netflix.

Her experience on the small screen front is extensive as well. The television mini-series *Uprising* received an ACE Eddie nomination, and in 2015 Sabrina was nominated for an Emmy on the A&E mini-series *Houdini*. In recent years, she has edited episodes of Steven Spielberg's *Amazing Stories* reboot. And most recently, Sabrina was nominated for an Emmy for the pilot of *Ms. Marvel*, her second collaboration with Marvel.
